

## Grain Buying Hours Policies

Based on current electronic futures trading hours of the CME (Sunday to Friday 7:00 pm – 7:45 am CST, then reopening again at 8:30 am – 1:15 pm CST), It is **Country Partners Cooperative's (CPC)** policy to openly buy and sell grain **Monday through Friday, between the hours of 8:30 am and 1:15 pm**, unless there are previously announced shortened trading hours.

**CPC** will not buy/sell grain or accept offers to buy/sell grain by telephone message, text or email after normal hours of business.

**CPC** reserves the right to temporarily adjust or suspend grain buying & selling practices for a brief period of time just before or after the release of government reports or any other like event that could potentially lead to additional price volatility.

Buying and selling of grain after business hours can be done through the use of Grain Offers. See Grain Offer policy.

All **CPC** grain bids or policies are subject to change without notice.
